

Communication log

| Date | Comment |
|--------|---|
| Oct 12 | Everyone discusses the plan for the next iteration and how to proceed from here. Everyone agrees to discuss further when the feedback is released |
| Oct 15 | Feedback is released and everyone discusses about their performance and agrees not to do any last-minute works |
| Oct 17 | Tanjib shares that he was facing some difficulties in coding part. Thus, Bishal and Tanjib agrees on interchanging their work for the iteration. Kerolos needs not do his revision marks as he did a pretty good work in the previous iteration. |
| Oct 19 | Tanjib offers to do the sequence diagram as he is already done with his Use cases. He added one new functionality for the code (color and shape option for visually impaired) which is a new thing to our plan. Everyone disuses about the minor release of the application briefly. |
| Oct 23 | Everyone was busy for the rest of the week as this was a midterm week. So further discussion was not possible. |
| Oct 26 | <p>Zee offers to complete the code taking the rest task of coding from Bishal as he is making good progress with his part. Everyone agrees that will be good for this iteration for the coding part.</p> <p>Kerolos discusses with everyone about his complete class diagram and how he constructed it as it will help to code the application.</p> |
| Oct 28 | Everyone further discusses about the code that needed to be modified. Zee explained everyone about the code and ask opinion about the expected part for submission. |
| Oct 29 | Bishal agrees to take over the iteration plan as Zee was busy with his coding. |
| Oct 30 | Everyone reviews their work and all the documents for the iteration and made necessary suggestions. As the deadline was extended it is decided to submit the documents on October 31 before 7pm. |

- Group members agrees to respond to Discord messages within 24 hours. Members agree that responses must be meaningful and relevant to any question asked.
